## HOW TO MEASURE

CHEST\*: Measure entirely around under the armpits from the outside of the weight of the garment that is to be worn underneath the jacket

SLEEVE: Measure from the center of the back of the neck to the wrist

BACK LENGTH: From the back, measure from the base of the neck to the bottom of the buttocks

All measurements are in inches.

\*NOTE: CHEST is the chest measurement of one's body, not the actual measurement of the chest area of the jacket.

**\*\*The chest area under the armpit is wide but then tapers in down to the waist.\*\***

**\*\*MAKE SURE THAT THE CHEST AND CIRCUMFERENCE OF THE BOTTOM OF THE JACKET MEASUREMENTS WILL FIT YOU.\*\***

This is a true work jacket pattern, so the the wide chest measurement is to allow for ease of movement while working.

## CIRCUMFERENCE OF BOTTOM OF JACKET:

(Measure circumference by identifying where the back length hits you on your body-measure around your body at that point.)

Small- 37-39 inches

Medium- 41-43 inches

Large- 46-48 inches

XL- 49-51 inches

2XL- 53-55 inches

3XL- 56-58 inches
