LARGE	53	35 1/2	27 1/2
XL	57	36 1/8	27 1/2
2XL	61	37	28 1/2

## HOW TO MEASURE

CHEST\*:Measure entirely around under the armpits from the outside of the weight of the garment that is to be worn underneath the jacket

SLEEVE: Measure from the center of the back of the neck to the wrist

BACK LENGTH: From the back, measure from the base of the neck to the bottom of the buttocks

All measurements are in inches.

\*NOTE: CHEST is the chest measurement of one's body, not the actual measurement of the chest area of the jacket.

The chest area under the armpit is wide but then tapers in down to the waist.

This is a true work jacket pattern, so the the wide chest measurement is to allow for ease of movement while working.

Actual CHEST measurement of a SMALL RED-LINED jacket is 42 INCHES; Actual CHEST measurement of a SMALL BLACK-LINED jacket is 44 INCHES
